CISAM AIM MODULE

CISAM Accessible Instructional Materials (AIM) Module is a FREE, self-paced online course. SIGN UP TODAY!

What Are AIM?

AIM refers to print instructional materials that have been transformed into specialized formats – braille, large print, audio, and digital text.

Check Out CAM If You

- Have students who need extra supports in accessing standard print
- Are a teacher with students with learning disabilities, physical limitations, and/or visual impairments
- Want to know more about identifying which of your students might need AIM to succeed
- Want to know more about AIM and how a student might be able to use AIM in your classroom

Discover

- Why AIM are required and how AIM support student learning
- The various formats of AIM and see examples of each in action
- Which students benefit from and qualify for AIM
- Where and how to obtain AIM

Certificate & Credit

- Earn a 15-hour PD certificate. A limited number of grant-funded PD certificates are available until December 31, 2013 at no additional cost. After that, the certificates cost only \$59.
- 1-hour graduate credit option is available for \$269. Call 1-800-966-9638 for more information
